Education

BS, Computer Science Candidate
Portland State University | Graduation expected 2025

AAS, Computer Programming
Lane Community College | Graduated 2022

Work Experience

JavaScript Developer Intern
Oregon Criminal Defense Lawyers Association   *March 2022 – June 2022*

- Refactored and added new features to an interactive map application that displays markers and info windows for members of the association using JavaScript, PHP, and HTML.
- Added a map view toggle to the search directory, enabling OCDLA members to visualize directory information related to their search results on a map.
- To create the map view, built a JavaScript package that takes in a user's search query and generates checkbox toggles for the various query fields such as first name, last name, and city.

ASP.NET Developer
Freelance   *March 2022 – July 2022*

- Collaborated with a team of four student developers to create a video and music hosting website. Was then hired to add additional categories and features after graduation.
- Utilized JIRA for issue tracking and Agile sprint planning.
- Created the CSS styling and design of the website.
- Built a content rating system that displays the average rating of content in star format.

Skills

- Front-End: JavaScript, React.js, CSS, HTML
- Back-End: Node.js, C#, SQL, MongoDB
- Cloud Services: AWS, Heroku, Microsoft Azure
